

## What is HGH and Why Is It So Important For You?

HGH is produced by the pituitary gland in the center of the brain. Everyone naturally has HGH in their body from birth. During adolescence, when we are at an optimal youthful condition, production of HGH is high.

**The lower your HGH levels, the more you will feel the effects of aging.**

## Your HGH Levels Have Been Declining Since You Were In Your Twenties!

The problem is that HGH levels aggressively decline with age, beginning between the ages of 21 and 30 at a rate of a whopping 14% per decade!

By the age of 40 you already have "elderly" levels of HGH production, down as much as 50% of youthful levels. The earlier you address declining HGH levels the better.

And it's never too late. The bottom line?

Research has shown that virtually every adult is HGH deficient.

## Reverse the aging process...NOW!

Human growth hormone is the first substance that has been clinically proven to reverse the effects of aging! There is now a substantial body of credible, medical evidence that HGH can positively change people's lives. Proven results reversed 10 to 20 years of the aging process, with fat diminishing, & muscle tissue increasing.

### So why use PureFORM's HGH?

Decrease Bodyfat	Increase Lean Muscle Tissue
Improve Energy	Resilient Immune System
Improve Sexual Performance	Increase Cardiac Output
Improve Libido	Reduce Loss of Hair or Hair Color
Improve Skin Elasticity	Diminish Wrinkles and Cellulite
Improve Mental Function	Improve Memory
Improve Vision/Eyesight	Improve Bone Mass and Density
Improve Strength	Improve Exercise Performance
Lower Blood Pressure	Desirable Cholesterol Profile
Better Sleep	Faster Rate of Healing
Decrease Joint Pain	<b>AND MORE.....</b>

Based on scientific research, **Pureform's** Human Growth Hormone (HGH) Oral Spray has been proven to be a safe and effective supplement that replaces the body's natural production of growth hormone. Each 1 fluid ounce bottle of **Pureform's** Human Growth Hormone contains Human Growth Hormone 3X3 (650 nanograms per spray), TA-5, in a base of purified water, polymer matrix, sodium metasilicate, calcium ascorbate, and a herbal blend complex.
